

# CRUSHER COMPACTOR

3rd generation of the famous crusher / compactor CROMA. This equipment is the solution to your polystyrene recycling problems. Designed to treat EPS XPS, it allows you to reduce your storage volume up to 40 times while enhancing your waste by reselling leaves compacted EPS

## Advantages

- It is the optimum solution for waste management of expanded, extruded or graphite polystyrene.
- The treatment does not generate no smoke and can accept small impurities without damaging the device.
- Compacted blocks are standard section 25 cm x 25 cm.
- The reselling value of the expanded polystyrene condensed breads depends on the market price (*ranging from 300 to 500 € HT / ton*).
- Warranty 1 year or 2000 hours *the first of these limits being reached*.
- Possible Soundproofing
- Automatic lubrication
- Machine complies with CE instructions.

## Technical Data

	Electrical connection	400V-15A three phase system Including ground and neutral.	  
	Power engines	7500 W – 10 Hp	
	External size	Lg= 3620 mm Depth= 800 mm Ht= 178 cm	
	Hopper capacities	1500 liters	
	Standards	CE compliant machine with instructions	
	Terms of use	-10 ° to 30 ° C	
	Output Density	Up to 370 kg / m <sup>3</sup> .	
	Productivity	up to 110 Kg / h	
	Maintenance	Automatic lubrication (optional)	
	Capacity	50 tons / Year	
	Sound level	115 dB	

## Options

Inspection hatches	<b>Ease access to clean the tank</b>
Anti-corrosion paint	<b>Recommended for fish boxes processing</b>
Footboard	<b>Eases access to the hopper for loading</b>
Soundproofing	<b>Reduces the noise level of 115 dB 75 dB</b>
